A photograph of the interior of Gruta Cathedral, a cave with dramatic, layered rock formations. The walls and ceiling are covered in light-colored, horizontally striated rock. Large, dark, jagged rock formations are visible on the left and right sides. In the center, a group of people are standing on a rocky path, illuminated by warm, yellow light. The overall atmosphere is mysterious and awe-inspiring.

GRUTA CATEDRAL

GRUTA DO LAGO AZUL

Autor: Hudson Garcia

A wide-angle photograph of a large, dimly lit cave interior. In the center, a large pool of water glows with a vibrant blue light. Two people wearing helmets and safety gear are standing on a wooden walkway in the foreground, looking towards the pool. The cave walls are made of rough, layered rock. A bright light source creates a starburst effect in the middle of the image, near the water.

An underwater photograph showing a large group of fish, likely tilapia, swimming in clear water. The fish are mostly silver with yellowish-orange fins and a dark lateral stripe. They are swimming over a sandy and rocky bottom covered with green algae. The water surface is visible at the top, showing ripples and reflections of light.
